

SPONSORS

An expedition to the Himalayas on this scale is always a challenge to organise, especially when a team of 15 had to be selected from a squad of over 100. The team is very grateful for the time and effort that has been put in by all individuals to enable the expedition to take place.

Getting 15 people onto the summit of a little climbed 6000m peak was also never going to be cheap. The team members themselves have contributed to the expedition but we are hugely indebted to all our sponsors and benefactors without which the the expedition could not take place.

powertraveller
without boundaries

if **you can**
dream it
we can power it

<http://www.powertraveller.com>

Power traveller designs, develops and manufactures an award winning range of portable power and solar chargers for electronic devices. Designed in the UK and tested to destruction in some of the world's most inhospitable environments, the products in Power traveller's range are capable of charging anything from cell phones (including iPhone and BlackBerry) and iPods through to Sat Navs, GPS systems, iPads and laptops. Power traveller have generously supported the expedition by donating a solar charging solution to provide power for the communications equipment.

THE ULYSSES TRUST

The Trust provides funding assistance to challenging expeditions and adventurous activities involving members of the Volunteer Reserve Forces and Cadet Forces of the UK. Founded in 1992, it has supported over 1,500 expeditions to the tune of around £1.5 million. The Trust is a registered charity (registration number 1012346), sponsored by the Ministry of Defence. The expedition is indebted to the Ulysses Trust for their generous financial contribution.

<http://www.cotswoldoutdoor.com>

Cotswold Outdoor started life in 1974 as Cotswold Camping. The company premises consisted of a small outbuilding in the Cotswolds, from which the founders sold a range of basic camping accessories. 40 years later, the company is now a multi-award winning retailer with numerous thriving stores located nationwide, an award winning website and a highly successful mail order service, with one of the most comprehensive ranges of outdoor clothing and equipment in the UK. Cotswold outdoor have generously agreed to provide the expedition with team uniform baselayers and are providing personal outdoor equipment at a reduced cost.

www.mountainfuel.co.uk

Mountain Fuel specialises in the formulation and development of supplements and food targeted at individuals and teams involved in extreme & endurance sports. With two years of intensive research and field trials the team at mountain fuel has developed a range of products for those individuals who subject themselves to conditions way beyond the physical and psychological demands of other sports. Mountain Fuel have generously agreed to provide the expedition with subsidised Mountain Fuel products

www.dmmclimbing.com

DMM has over 30 years of manufacturing experience in both recreational climbing and mountaineering and industrial markets. Originally employing 4 people, DMM now payrolls over 150 personnel and continues to develop and innovate, to bring unique and world leading products to the market.

The expedition would like to thank DMM for their continued support to the Army Mountaineering Association.
